

CORTE C-C

A detailed 3D cutaway diagram of a complex industrial machine housing, likely a mold or a high-pressure chamber. The housing is composed of several layers, numbered 1 through 7 from top to bottom. The top layer (1) is a thick, green-colored plate. Below it is a grey layer (2) with a rectangular cutout. Layer 3 is a grey layer with a central vertical channel. Layer 4 is a grey layer with a central vertical channel and two large, curved, brown-colored components on the left side. Layer 5 is a grey layer with a central vertical channel. Layer 6 is a grey layer with a central vertical channel. Layer 7 is the bottom-most layer, a grey plate. The central vertical channel runs through the middle of the housing, containing a complex assembly of components including a central shaft, a piston-like component, and various seals and guides. The housing is shown in a cutaway view to reveal the internal components and the central channel.
